KUNJ DETROJA

Full Stack Software Engineer

kunjdetroja52@gmail.com +919714821210 Kunj Detroja KunjDetroja Kunj.me

Profile

Full Stack Software Engineer building web applications with **React, Next.js and Node.js**/**Express**. Experience across B2B commerce, booking platforms, rewards, HRMS and AI-assisted workflows, including relational data, secure authentication, payment integrations and real-time features. Available to join immediately.

Experience

Software Developer | Feb, 2025 - Present
The Bilions, Remote

- Built **Total Liquor** buyer/seller interfaces and **PostgreSQL-backed order APIs**; integrated **Finix** authorization/capture, signed webhooks and payment reconciliation.
- Developed **AOG** React dashboards and **React Native**/**Expo** workflows, with secure session storage, WebView game journeys and **MySQL-backed dual-currency wallet services**.
- Implemented **HRMS** employee, attendance, payroll and organization workflows, including Google Drive integration.
- Built **Winbid** procurement discovery and staged proposal generation using **Ollama**/**Llama**, with real-time progress, cancellation and formatted DOCX export.

Backend Developer Associate | Jul, 2023 - Oct, 2023
Trakky Techno Services Pvt Ltd, Ahmedabad, IN

- Developed **REST APIs** using **Django and Django REST Framework**, including models, serializers and ViewSets.
- Worked on SQLite queries and backend functionality with the development team.

Projects

Rentra - Booking Platform
[Next.js, Express, PostgreSQL, Drizzle, Razorpay]

- Built customer, owner and admin workflows for property discovery, availability calendars and **reservation holds**.
- Prevented overlapping reservations using **PostgreSQL row locks, transactions and exclusion constraints**.
- Implemented signed **Razorpay webhooks** with event deduplication and queued processing; integration uses test mode.
- Added retryable background jobs with processing leases and retry limits for reliable payment-event handling.

CineVault - Entertainment and Social Platform
[Next.js, Express, PostgreSQL, Prisma, Redis, Socket.IO]

- Built **TMDB-powered media discovery** and library tracking with **TanStack Query and Zustand** for frontend state.
- Developed ranked collections, social follows and collaborator invitations using **PostgreSQL**/**Prisma**.
- Implemented authenticated **Socket.IO notifications** for social and collection-collaboration events.
- Added **Redis-backed caching** and a Redis socket adapter to coordinate real-time delivery across API instances.

AOG - Web and Mobile Rewards Platform
[React, React Native, Expo, Express, MySQL, Socket.IO | Company project]

- Developed React web dashboards and shared Express APIs across **Player, Agent and Admin** roles.
- Implemented **MySQL-backed dual-currency wallet workflows** distinguishing playable and redeemable balances.
- Built **React Native**/**Expo** navigation, SecureStore token persistence and WebView game/orientation workflows.
- Added recovery for interrupted mobile requests, real-time wallet updates and backend **Firebase push notifications**.

Education

B.E. Information Technology | Nov 2021 - Jun 2025
LJ University, Ahmedabad, IN
CGPA: **8.76**

Skills

Languages - JavaScript, TypeScript, SQL, HTML, CSS

Frontend - React, Next.js, Redux Toolkit / RTK Query, TanStack Query, Zustand, Tailwind CSS

Backend - Node.js, Express, REST APIs, JWT, Socket.IO, Django / DRF

Data - PostgreSQL, MySQL, MongoDB, Redis, SQLite, Prisma, Drizzle, Sequelize

Mobile & Testing - React Native, Expo, Jest, fast-check

Integrations & Tools - Finix, Razorpay, AWS S3, Ollama / LLM integration, Git, GitHub
